## ANOTHER INJUNCTION TAKEN OUT

Council is Restrained From Taking Any Action on Evidence Submitted By Civic Investigating Committee

### COUNSEL FOR TWO COMMISSIONERS ASKS FOR DISQUALIFICATION OF FOUR ALDERMEN

## Scores of Lives Crushed Out And Seventy Persons Injured When Express Leaves Rails

Train Splits Switch and Plunges Over Viaduct—Wreckage Catches Fire, But Does Little Damage

### SPECIAL TRAINS ARE RUSHED TO THE RESCUE

HARTFORD LINE'S CRACK TRAIN THE "FEDERAL EXPRESS" MASS OF TWISTED IRON AND SMOKING WOODWORK—ST. LOUIS NATIONAL LEAGUE BALL TEAM IN WRECK BUT NONE OF PLAYERS WERE INJURED—MANY MIRACULOUS ESCAPES.

Bridgeport, Conn., July 11.—Many lives, probably a score, were crushed out in an instant, and probably seventy persons frightfully hurt when early today "Federal Express," running from Washington, D.C., to Boston, over the New York-New Haven and Hartford railroad, was hurled over a viaduct here by an open switch. Fire broke out in the wreckage but the Bridgeport fire department quickly put it out and the men lent assistance to rescue the injured.

Ambulances and doctors were hastily summoned and did their best to save those who were under the wheels.

The express left Hartford at 10:30 a.m. It was going at a high speed when an open switch a mile and a half west of Bridgeport station was struck.

Then was one tremendous crash, an instant of intense silence and groans and shrieks of wounded. The wreck was almost complete.

Five cars having gone over and only three being left on the track. The engine twisted into junk was 200 feet south of Fairfield avenue.

Behind were mail and baggage cars, while the pullmans and coaches were in a mass in the rear.

## British Columbia Surveyors Are Due In City Tomorrow

WILL LAY OUT VAST AREA AND SECURE DATA ON TETEAU JEANNE COUNTRY FOR LAND DEPARTMENT OF THE COAST PROVINCE.

For the purpose of taking a surveying party into the TetEAU JEANNE country to begin the work of surveying a land reserve in behalf of British Columbia, W. G. McElhenny and M. W. Hewitt, civil engineers of Vancouver, are to leave Edmonton tomorrow with a party consisting of some 25 men. Advance agents of the engineers are now at the Alberta making preliminary arrangements for the trip. The engineering work will by no means be completed this year. It will be just started and the engineers will keep the field until driven out by winter. This will probably be in November and will be the purpose of this survey is to

## EDMONTON BUSINESS MEN VISIT MIRROR

BIG SALE OF TOWN LOTS BEING HELD IN G.T.P. DIVISION TOWN TODAY—SPECIAL TRAINS FROM CALGARY AND WINNIPEG.

With half a hundred or more Edmontonians aboard, also some prominent realty men of Winnipeg, the Grand Trunk Pacific train pulled out this morning at 9 o'clock for Tofield where it met the special train from the east en route to Mirror, the town twinned with the Calgary-Tofield branch. The sale of town lots is being held and birth is taken to a new municipality. Mirror is the annexed division point on the main line, situated on the Buffalo lake some 20 miles from Tofield and is said to be a promising spot on the plain.

The sale has attracted widespread attention. A St. John representative of the Transcontinental, Toronto, and Winnipeg, and George Reynolds, prominent realty man of Winnipeg, came to Edmonton and this morn-

### GOT AN \$18,000,000 CONTRACT FROM C.N.

NORTHERN CONSTRUCTION COMPANY TO COMMENCE WORK ON HOPE-KAMLOOPS LINE SOON

Calgary, July 11.—On his way home to Winnipeg after securing an \$18,000,000 contract for work on the Canadian Northern railway line from Hope, B.C., to Kamloops, B.C., a distance of 160 miles, C. V. Cummins, secretary-treasurer of the Northern Construction Company, passed through Calgary on Sunday night. The contract secured marks a Canadian record, and among many railroad contractors it is said that the line, when completed, will be one of the most costly pieces of railroad construction in the world.

In an interview, Mr. Cummins stated that work on the new piece of road would be commenced as rapidly as possible, it would take at least two years to complete the road, but through a country of rugged rocks, and in many miles it will have to be cut through almost solid rock.

### BOARD OF TRADE EXHIBITS STOLEN

COLLECTION OF GRAINS AND GRASSES LIFTED FROM TEMPORARY STOREHOUSE LAST NIGHT

It is indeed a mean man who will break in and steal cereals gathered with extreme care for the purpose of exhibits at the various fairs and expositions throughout the province but just such a man exists for the collection of superior grains gathered by L. J. Purdy for such purposes was last night stolen from the fourteenth street school house where it was stored. The exhibits were being brought together by the board of trade of this city and there had been considerable work done in the school house when it was looted. The thieves when it was looted had taken the exhibits and the board of trade have learned who took the collection and are looking to his apprehension are being taken.

### THREATENS TO SUE CITY FOR DAMAGES

LADY RUINS NEW SILK DRESS WHILE RIDING ON STREET CAR—SAYS CITY MUST SETTLE

Because her braided new dress was ruined in a street car on three days ago a woman residing on the east side threatens to bring action against the city for alleged damages. She has prepared a letter which she will send to the city council asking for compensation for the damage to her dress. The accident in which her wearing apparel suffered severely. Complained with she will ask that the municipality reimburse her for the loss of the dress, in the sum of \$25.

The lady in question states that the damage sustained was the direct result of coming in contact with a defective pole in one of the city's street cars. When she arose from the seat some one caught her dress, tearing it badly. She has no doubt that the city is responsible for the loss of the dress.

### TEXAS COUNTY OFFICIALS MEET

Houston, Tex., July 11.—In connection with the annual convention of the Shoy's association of Texas which opens at Houston today, a number of county officers, county assessors, county treasurers and county clerks, representing nearly every county of the state, are gathered here. They were especially invited by the sheriff to meet together here during the convention, with a view of joint action in a discussion of certain much needed legislation affecting the status and work of the county officers, and the state.

### Government Begins Work on Saskatchewan Avenue Bridge

Excavation was commenced this morning for the abutments of the new government bridge across Saskatchewan avenue to Seventh street, which is to form one of the approaches to the parliament buildings, and the work is to be carried through with all speed during the summer months, reaching completion, it is anticipated, in about three months time.

The new bridge will be of steel arch construction, on concrete abutments, and will form an 80 foot span across Saskatchewan avenue, giving a clearance between the car rails on the avenue and the underside of the arch of 26 feet. The roadway will be of concrete, and 30 feet in width, with on the either side will be 6 foot concrete sidewalks, giving a total width of 42 feet. The very best of material will be used in the construction of the bridge, which will provide entrance to the grounds surrounding the parliament buildings, some distance south of the main entrance.

Steel for the structure will be delivered in the near future. The work will be completed about the middle of October.

### Montreal Real Estate Firm To Capitalize at \$10,000,000

SYNDICATE HAS PURCHASED THOUSANDS OF DOLLARS WORTH OF PROPERTY NORTH OF MOUNT ROYAL—SUBSIDIARY COMPANY OF CANADIAN NORTHERN

Montreal, July 11.—It is announced that the Dayton-Shaw syndicate which recently acquired 250,000 shares of the Canadian Northern railway and which has been buying hundreds of acres of land and expending hundreds of thousands of dollars in the north, is now in the process of organizing a subsidiary company to be known as the Canadian Northern and is said to be a subsidiary of that company, but just what the nature of the connection is has not as yet been announced.

### NO LABOR PROBLEM IN STRATHCONA DISTRICT

GRAIN GROWERS IN SECTION OF WHICH UNIVERSITY CITY IS HUB WILL REAP BUMPER CROPS—ANTICIPATE NO DIFFICULTY IN SECURING HARVESTERS.

Strathcona, July 11.—There is small chance of farmers in the Strathcona district having to raise their voices in the wide western clamor for additional harvesters when the grain ripens this fall. It is feared that in certain parts of the province there may be a real shortage of farm labor when harvest comes but it is extremely doubtful that a condition of this nature will be experienced here. Not that the crops will be less heavy in the Twin Cities district than in other places, the reverse may very properly be expected from the present showing but through the privileged location as an immigration distributing point Strathcona and Edmonton have never failed to supply the necessary labor if the farmers sought it at the proper time.

These cities are still the terminal points for traffic and in consequence it is a rare occurrence to find a shortage of help here. The work hunters very naturally drifting in by great numbers at all seasons of the year. In the past the farmers have had no great difficulty in procuring men for the summer harvest. They make their preparations early enough this summer every field should be well looked after when the time comes for the binder to start its work.

The municipal undertakings in the two cities this summer, as well as the annual amount of other work going ahead, is providing employment for vast numbers of laborers but for the summer season can be found a good percentage of men who prefer to eek in the harvest and will perhaps stay in the city for the opportunity. It is also to be expected that a great many of the harvest hands coming west this year will make Strathcona and Edmonton their destination by reason of their location on the borderland of the vast empire to the northwest upon which the eyes of the east are now turned.

From the experience of other years it is scarcely probable that the Strathcona district will suffer this fall from the shortage of farm help.

### Counsel for Bouillon and Butchart Asks that Ald. Grindley, Lundy, McInnis and Mould Be Disqualified

### DEFENDANTS MUST APPEAR IN COURT NEXT TUESDAY

F. FRASER TIMS' NAME APPEARS AS PLAINTIFF IN THE INJUNCTION GRANTED BY MR. JUSTICE SIMMONS TODAY—EVIDENCE GATHERED BY INVESTIGATING COMMITTEE CAN BE DISCUSSED BUT ABOVE MENTIONED DEFENDANTS ARE PROHIBITED FROM TAKING ANY PART IN COUNCIL PROCEEDINGS.

An injunction to restrain four members of the city council, Aldermen T. M. Grindley, J. W. Mould, J. E. Lundy and H. L. McInnis, from taking any part in proceedings in respect to the complaints against Commissioners Butchart and Bouillon, was granted by Mr. Justice Simmons at 2 o'clock this afternoon, upon the application of F. Fraser Tims, and the denouement of the trial of the commissioners, which was expected this evening when the report of the committee of the whole was to have been brought in, is thus postponed until this action can be disposed of. The action is set down for trial at 10.30 on Tuesday morning next, July 18.

The injunction will prevent the aldermen named above from voting on any matter which may be brought before the council in connection with the report of the committee of the whole.

In the course of the recent trial the charges against Com. Butchart were preferred by Ald. McInnis and those against Com. Bouillon by Ald. Lundy. A declaration will be asked from the court that these aldermen are disqualified from voting by reason of the fact that they were the complainants. Disqualification of all the four aldermen is held to have been established by the alleged facts that they had previously expressed their opinion to give judgment against the commissioners, and disqualification is also asked on the ground that they themselves gave evidence before the investigating committee. The plaintiff asks that Ald. Grindley and Mould be disqualified from voting on any motion which might lead to the dismissal of Com. Bouillon and Butchart. Instances are also cited of times when the aldermen are interested in and directors of the firms Gorman, Clancy and Grindley, Ltd., and the Standard Heating and Plumbing Co., respectively.

After reciting the means by which the recent trial of the commissioners was carried out, the statement of claim outlines the charges which were preferred by Ald. Lundy and McInnis against Com. Bouillon and Butchart. Instances are also cited of times when the defendants are alleged to have prepared and had printed in the newspapers charges against Com. Bouillon almost identical with the complaints referred to the civic investigating committee and which are contained in their report laid on the council table last Tuesday night. It is further stated that inasmuch as all the above mentioned defendants were called before the investigating committee and gave evidence in support of the complaints that they should be disqualified from voting on any motion dealing with the investigating committee's report.

## Will Erect \$30,000 Dominion Armory In University City

BROWN CONSTRUCTION COMPANY AWARDED CONTRACT AND ERECTION WILL BE COMMENCED AT ONCE—TO BE COMPLETED EARLY IN SPRING.

Strathcona, July 11.—The Brown Construction Co. of Winnipeg, who have the contract for the erection of the dominion armory in University City, will have their foreman on the ground this week and it is promised that construction work on the \$30,000 building will be commenced at once and pushed vigorously. A communication to this effect was received last evening by Major Marriott of "B" squadron, 19th Alberta Dragoons, and as the information came direct from the head office of the construction company it may be accepted as authentic.

Strathcona's military men have been the inconvenience of inadequate quarters with an admirable show of patience during the long delay in having arrangements made for the erection for this new building but once the contract was awarded the officers lost no time in ascertaining the intentions of the construction company.

## Preparing Report for Geological Congress

Dominion Geologists' Report Will Deal With Coal Resources of Dominion—Will Take Two Years to Prepare—Convention in Toronto 1913

After he completed his season's party this summer consists of making a complete map of all the coal areas that will be opened up by the completion of the G.T.P. and the C.N.R. through the mountains. When he has completed his work in connection with the international geological congress he will go farther afield in his surveys. The object is to map out this summer the areas that can be developed at once.

Mr. Dowling stated this morning that all the delegates to the international congress will be taken on a tour of the Dominion at the conclusion of the deliberations in Toronto. Miners, scientists and educationalists from all parts of the world will attend the gathering and will be given the opportunity to see the country. For the use of the delegates a map of the coal areas in the south of the province from Groulx to the summit, taking in the mining districts of Humber, Glenora and Frank is being prepared. Walter Boyd of the geological survey branch at Ottawa is now in the district taking complete surveys for the map. The mountain at Frank, where the great slide occurred several years ago will have been discovered. Mr. Dowling is of the opinion that there is danger of another slide occurring on the mountain.

The work of Mr. Dowling and his

## Gas Propositions Are Again Laid on the Table

NUMBER OF ALDERMEN ARE DISSATISFIED WITH SO-CALLED MODEL AGREEMENT—DIFFERENT PROPOSITIONS WILL BE FURTHER CONSIDERED.

Beyond discussing the model gas agreement in committee of the whole and reporting progress to the city council and the citizens at the meeting last night, still having plenty of room for speculation as to the probable outcome of the efforts of G. S. Eaton, representing the International Lighting and Heating company, of Cleveland, Ohio, to secure a franchise for the manufacture and distribution of artificial gas in Edmonton.

Practically all of the evening's discussion on the agreement, drafted by Utilities Commissioner Boulton and accepted by Mr. Eaton, took place in the committee of the whole. Aldermen Hyndman and McKinley were absent while those present at the session seemed to be about evenly divided as to the question of accepting or rejecting the proposed agreement.

Alderman Melnis attacked the agreement in a vigorous manner, picking out what he considered serious objections to its acceptance so far as the city was concerned. Chief among the points he succeeded in bringing out to the surprise of a number present was that the company would make 17 per cent. on the combined investment of city and company in a gas plant and distribution system, instead of seven per cent., as has been stated all along. O. M. Biegar, counsel for Mr. Eaton, admitted that the company would earn 15 per cent., possibly as much as Mr. Melnis had claimed.

The Gasless gas proposition did not come up, nor did the Grand Forks, North Dakota, company submit an offer to install gas works in the city, although it is understood the latter is prepared to make a proposition.

**Protest Against Agreement.**  
At the beginning of the meeting two letters were read protesting against the so-called model gas agreement.

Alderman Melnis said that if no one else would start the discussion he would, and he did by expressing surprise that the city should take up a proposition in this way. He believed it was impossible for a company to make the necessary profit on gas like Edmonton by expending from \$80,000 to \$100,000 in an artificial gas plant.

**Not Good Business.**  
"We find," continued Mr. Melnis, "that the city is supposed to put up 40 per cent. of the cost of the plant. I don't think it is good business for this city to guarantee 17 per cent. to a company that has to invest \$80,000, and then at the end of 25 years give them a bonus of 100 per cent. on the investment."

As Mr. Melnis resumed his seat, Alderman Lundy suggested that the city should consider the whole of the matter, and not just the gas agreement, which was agreed to.

**In Committee of the Whole.**  
Gathering around the city commissioners' table in the centre of the room, with Mr. Eaton and his counsel, Mr. Biegar, continuing seats at one end, the aldermen took up the agreement clause by clause, discussing each in an informal way.

"If the city were to own 80 per cent. of the capital stock in this company, I would say all right," observed

Alderman Melnis, "but for the city to own 80 per cent. for the other fellow, no, not for me."

**Consumers Would Foot the Bill.**  
Mr. Melnis feared that the citizens of Edmonton, at least, the consumers, would, under the terms of the agreement, actually pay a profit to the company of from 30 to 35 per cent. each year. He asked Mr. Eaton if that was not true. Mr. Eaton said he did not see the point that Mr. Melnis was trying to make.

"What's that got to do with this?" interposed Alderman Lundy.

"What becomes of the bonds of which the city guarantees 80 per cent. for a gas plant?" was the pertinent inquiry of Alderman Melnis.

**Bonds to be Cancelled.**

"The bonds are to be cancelled as they are redeemed," ventured Alderman Lundy.

City Solicitor Brown said the sinking funds would increase as the bonds decreased. By the time the bonds were retired, the sinking fund would equal the original amount of bonds.

**Who Owns the Plant?**

"Who owns the plant?" insisted Mr. Melnis.

"The city," responded Mr. Brown.

"The company gets back only what it has put into it," suggested Mr. Biegar.

"If the company gets back seven per cent. one year they may make it up the next year, but the city doesn't guarantee it."

"It was a guarantee so far as the city can make it," argued Alderman Melnis.

"If the city guarantees 80 per cent. you can make it," he said.

"That is my understanding," came from City Solicitor Brown, in substantiating Mr. Biegar's statement.

Alderman Grindley agreed with Alderman Lundy that the city should not want to enter into a similar agreement with another company to furnish gas, as provided in the agreement.

"The city couldn't stand to put up 80 per cent. in bonds for another company," suggested Mr. Biegar.

**Company Gets 17 Per Cent.**  
"The company would actually be getting 17 per cent. instead of seven per cent. for the city," suggested Mr. Biegar.

"I don't think it is good business," wouldn't it?" again suggested Alderman Melnis.

"Yes, I guess so," missed Mr. Melnis.

After going over the agreement, it was suggested that the meeting adjourn and take it up tonight.

Mayor Armstrong thought the proper way was to see the city council and the city council would probably be a good idea to submit a municipal gas proposition to the ratepayers. The committee of the whole reported progress and the session adjourned.

## United Farmers Hold A Special Meeting

DISCUSS WAYS AND MEANS OF GUARANTEEING BETTER MARKET FOR THEIR PRODUCE—BELIEVE GRAIN GROWERS SHOULD FIX PRICE OF GRAIN.

Preliminary steps towards the organization of a central body through which all the producers of the farms of the Edmonton district may be marketed, were taken at a meeting of the district union of the United Farmers of Alberta in the exhibition board room yesterday afternoon. A committee was appointed consisting of P. G. Hutchinson, president; Chas. Burnett, vice-president, and F. C. Galt, secretary, and a meeting of the new farmers' association will be held four weeks hence to complete the organization. Salesmen will be appointed to handle the produce, and a number of inspectors at the meeting to be held next month. The locals represented at the board were those of Edmonton, Clover Bar, East Couderk Bar, Nanton, Stony Plain, Spruce Grove and Bon Accord.

Primarily called to discuss the above question, the meeting branched out into the discussion of many other subjects of importance to the farmer. After short discussion a resolution was passed dealing with the grain growers' guild, to take steps to enable the farmers to fix the price of their grain. Their grain shall be sold, the resolution affirmed that the farmers have the right to fix the price of their produce should be disposed of.

"We have that right today, but not the power," declared one delegate.

"We have the right to rule the country, but we don't do it."

It was this remark that precipitated the discussion on direct legislation that took up the greater part of the session, and met with the endorsement of practically all except one member of the union present.

"Just wait until we get the initiative and referendum," said Andrew Ruff, of Bon Accord. "We won't ask the government to get us a packing plant, we'll get it ourselves. And until we get the initiative we shall not be able to get very much else."

The subject of the referendum was dropped, to be taken up later in the evening session, and the delegates discussed the pros and cons of a government-owned packing plant. Mr. Babington made a speech in which he strongly opposed the government proposal that the farmers should guarantee a sufficient number of horses each year to make the packing industry a success, on the ground that it would be unjust to require one portion of the community to bear the responsibility for the financial outcome of the venture. He thought that a government which could spend large sums on reconstruction farms should not be backward in establishing a packing plant. It was not necessary that the proposition should be a paying one. This view was opposed by Geo. B. Fraser, who was a visitor to the meeting, and by other delegates. Mr. Fraser pointed out that the farmers could not hope to succeed in any fight against the big corporations unless they had the government behind them.

After short discussion a resolution was passed dealing with the grain growers' guild, to take steps to enable the farmers to fix the price of their grain. Their grain shall be sold, the resolution affirmed that the farmers have the right to fix the price of their produce should be disposed of.

## HUDSON'S BAY COMPANY

The Great Traders of the Great West

JASPER AT THIRD STREET

**DEADWOOD DICK JAILED**  
Dime Novel Hero Once Custer's Scout, Ending Days as Vagrant

"Deadwood Dick," the hero of a thousand dime novels, is languishing in the county jail in Denver as a vagrant.

From the honored place of scout to General Custer up to almost the very time when the fighting commander of the seventh Cavalry fell with his men on the bloody battlefield of the Little Bighorn, Walter Richard Morrison had fallen to become a figure well known

to the police and jail officials of Denver.

His life history is one full of romance and pathos, says A. M. Uhlman in the Los Angeles Times.

In his younger days he was one of the men who aided in the making of the great West.

Today he is an old man, past three score and three, and although seemingly holds little. But even in his present condition he is not disheartened. Although to use an every-day expression, he is "down and out," he still finds something to live for, but his lack of joy and pleasure is in telling of the days when he was a scout with Custer.

Deadwood Dick has been a familiar sight in Denver for 15 years. He was at one time wealthy, and until severe heart trouble came in comfortable circumstances. But since that time he has been eking out an existence by making a living out of his own past.

Now the old man is a most pitiful sight as he sits in the jail with three black and blue marks on his face, his hair that almost reaches to his waist—Denver Post.

## An Introduction And an Explanation

The tour of the Edmonton business men throughout the Edmonton district is a junket which should help to make better acquainted the wholesalers of the city and the retailers of the agricultural centres of the district.

The idea of an annual tour is one which has been adopted by almost all western centres. Spokane merchants, bankers and financial men make a very extensive tour throughout the Inland Empire every year. Winnipeggers run a special train all over the west. St. Paul and Minneapolis have been making the annual tour for years and Denver business men use the business men's excursion to keep the city men in touch with the mining development of the mountain country of which Denver is the centre.

Edmonton is the natural metropolis of as good or a better district than any other great city of the west, but it is not until this year that the system of radiating railways has been complete enough to give the connection necessary. The tour which commences Monday will be in the nature of an introduction and an exploration.

## Time for the Council To Finish Its Work

Brought squarely up against the documentary evidence that the tactics which he has been pursuing to make scape goats of minor officials in the city's employ and to glorify himself at their expense were very much at variance with the facts Commissioner Bouillon takes refuge in flight from the commissioners meetings.

If what Commissioner Bouillon says is correct, that he gave certain instructions which were not carried out and on account of which failure to carry out the city is now suffering from bad water, the commissioner should be able to turn to the records and show the place where the instructions which he says he gave were given.

If, on the other hand, there is no truth in the claim made by the water superintendent that he made certain recommendations looking to the end that the water supply should be made at least useable and that these recommendations were given no attention, Mr. Bouillon should be able to show that the recommendations which the water superintendent claims are on record are not on record and never were made.

Mr. Bouillon has evidently backed himself up into a position from which he cannot escape. Either what he says is correct or it is not. If it is correct he should be able to prove it and disprove what the superintendent says. If he cannot do this it must be taken for granted that he has been guilty of making an unwarranted and unjustifiable attack on a subordinate, and that upon being brought to book for that attack he takes refuge in flight on the specious plea that he will not be talked to by a subordinate.

Surely the city has had enough of Bouillon and his methods by now. It is time for the council to finish its work.

## Western Canada In the Front Rank

Crop prospects up to date continue to indicate a bumper yield for 1911. A little warm weather is now all that is required to make this the banner year of all in the long record of successful crop years in this district. That other districts as well as to be favored with a big crop will be good news to the Edmonton district, which last year, when half the country was laid waste, still harvested a good yield. The prosperity of the west depends not so much upon local success as upon a general success in the whole country.

Two hundred million bushels of wheat in Western Canada this year means that forever more the prairie country's capabilities are established and it is recognized throughout the entire world as one of the prime factors in the food supply of the nations.

Western Canada has been building for a quarter of a century to get into the front rank. With this year it has arrived.

## Council Temporizes On the Gas Question

Once more the city council gives the gas question the hoist with the expressed intention of further studying the conditions of the model agreement.

It is a remarkable circumstance that whereas a committee was struck for the purpose of framing a model agreement, that this committee comes out of its task bearing in its hands an agreement with the International. But that is aside.

The fact is that the council is still delaying and still temporizing where a bylaw to raise money for the construction of a municipal plant would at least settle the question of whether or not the rate-payers want to embark in the gas enterprise.

Until that question is answered it is putting the cart before the horse for the council to negotiate agreements with any company. It is not up to the aldermen to negotiate terms upon which the city shall dispose of the franchise until the point has been settled of whether or not the city is going to dispose of the franchise on any terms whatever.

## JUST PARAGRAPHS

Mr. Borden leaves the prairies with a declaration that he is perfectly satisfied with the reception which he has received throughout the west. Mr. Borden has a great reputation for gentleness, but really no one expected him to return with a soft answer in place of the agony of interrogation which he was forced to endure at the hands of the grain growers.

Three transcontinental systems out with the drag net to gather in harvest hands and a whole string of government bureaus working to the same end speaks louder than any tables of statistics or any departmental reports of the crop prospects. It is easy to tell by the hum of the separator when the country has money in the bank.

When the business men go out on that excursion they will have to take a bunch of guides along with them to keep tab on the new towns that have been established since the last timetable was issued.

Mr. Bouillon, apparently wants as a condition to any verbal duel into which he enters a provision that his antagonist be deaf and dumb.

## "THIS DATE IN HISTORY"

July 11  
1609—Champlain discovered the lake which bears his name.  
1708—Bathurst and allies under Duke of Marlborough and Prince Eugene defeated the French besiegers at Oudenarde, Belgium in the house.  
1767—John Quincy Adams, sixth President of the U.S., born in Quincy, Mass. He was in Washington, D.C., February 23, 1818.  
1814—A British fleet captured Castor, Quebec.  
1847—The Confederates threatened Washington, D.C.  
1896—Sir Wilfrid Laurier becomes premier of Canada.  
1898—Gen. Miles arrived at the American headquarters in Cuba.  
1908—Battle of South Carolina launched in Philadelphia.  
1910—The Vatican protested against the Spanish government's action in the matter of religious orders in Spain.

## "THIS IS MY BIRTHDAY"

George W. Norris, Representative from Nebraska, of the Fifth Nebraska district, who is one of the conspicuous leaders among the "underground" Republicans in the house, was born on a farm in Sashbury county, Ohio, July 11, 1861. His father died when he was a babe; his only brother was killed in the civil war, and his mother was left in straitened circumstances. In his boyhood he was compelled to work out among the neighboring farmers and his facilities for getting an education were very meagre. He studied hard, however, and became proficient enough to become a country schoolmaster. With the money thus earned he attended Baldwin university, and later took a course at the Indiana Normal school. He later was enabled to enter a law school and was admitted to the bar in 1883. Two years later he settled in Nebraska and began to practice law. He was elected to congress in 1892, and served on the bench from 1895 until his election to congress in 1902.

## DIFFICULTIES OF CANINE OWNERS

PAY A VARIETY OF TAXES, AMOUNTING TO SEVERAL DOLLARS PER CANINE

The city commissioners may be asked to help solve the problem of over-taxing owners of dogs in Edmonton. It appears that the dog bylaws impose a variety of taxes, including the straight tax of \$3 and \$5 for male and female canines, respectively, besides additional assessments required of those who belong to the Edmonton Kennel club and the Canadian Kennel club.

Members of the Edmonton Kennel club must pay \$2 a year, and the same fee is exacted of those who belong to the Canadian Kennel club. Then the Edmonton Kennel club is required to pay at the rate of \$25 annually for the privilege of affiliation with the Canadian Kennel club, making it a case of taxing all around, and then some.

Owners of dogs would like to have at least a portion of these taxes lifted off, and will probably ask the commissioners to assist a little in the pruning process.

Twenty-five immigrants yesterday and as many today registered at Immigration Hall, received shelter, information and encouragement at the accommodating hands of the officials. The nations of the earth are pretty much represented by those who registered at Immigration Hall. There were French, Germans, Danes, Americans from the States, two Swedes, a Norwegian, two Englishmen and an Irishman.

Will erect \$30,000 Dominion Armory in University City.

(Continued from Page One.)

While avenue west it is now assumed that at least \$75,000 of Federal money will be expended in these Strathcona improvements during the present year. The post office will cost more than this amount when finished but will not be ready for occupancy until sometime next spring.

Specialist Locates Here

The medical faculty of Strathcona is augmented this week by Dr. J. P. Brander, who comes here from Pinoka and has already purchased property and established an office. Dr. Brander is a specialist in women and children's diseases, having been trained along this line in some of the best medical institutions in Great Britain. He formerly held the position of External Assessor in the Gloucester Hospital, Dublin, of which place he is also a graduate, having successfully passed there examinations in medicine. He has also done extended post graduate work in medicine at London Hospital and in the study of children's diseases at Great Ormond Street Hospital for Sick Children in London.

Dr. Brander about two weeks ago bought the property on Whyte avenue west, belonging to J. McWhitty and plans to reside there after August 1st. His office is in the bungalow block on Main street.

The excursion steamer, City of Edmonton, will make a trip down the river on Thursday next, July 13, leaving the wharf at 2:30 p.m. and going down the river as far as Clover Bar.

Mrs. Thomas Weiss, residing at Sixth street, this city, is enroute to visit from her niece, Miss Scott, of the Strathcona, Manitoba.

## PROPHECY PEACE IN MOROCCO SOON

FOREIGN MINISTER RESENTS INTERFERENCE BY GERMANY—RUSSIA IS SUPPORTING FRANCE

Paris, July 11.—While the strictest secrecy is being maintained as to the four nations between France, Germany, Russia and Italy, the Moroccan situation and the sending of a German warship to Agadir, it is understood that there are progressing favorably, and there is no fear at present of strained relations between the two powers. In addition to the wholehearted support of Great Britain, Russia has spared no efforts in behalf of France.

On two occasions at St. Petersburg and Berlin respectively, Russia has made known her complete agreement with the French point of view.

The Moroccan foreign minister, M. de Sidi el Mokri, was interviewed in Paris, said in an interview today that the German, like the Spanish, interference in Morocco was unjustified. On the other hand, the despatch of a French column to Fez was necessary by the reasons in that section and was requested by the Sultan. The act of Algeria straining the foreign relations between the two powers and toward which the pending negotiations cannot justify a change.

## TORONTO MILLIONAIRE NARROWLY ESCAPES JAIL

W. G. Threlway Criticizes Magistrate When Refuses to Take Bail and Takes Chances on Going to Bastille

W. G. Threlway, Toronto millionaire, and the man who once secured franchises for the construction of a street railway in this city, was held into the Toronto police court a few days ago on a charge of violating the speed limit. Mr. Threlway contended that he had not violated the law and offered to bond the magistrate \$2,000 such was not the case. Failing to get a lawyer for his waiver the millionaire remarked that he would not get justice in that court whereupon the magistrate threatened to send him to jail. Eventually he was fined twenty dollars.

## SUNDAY SCHOOL PICNIC

The postponed excursion and picnic to Lake Watkinson of the Methodist Sunday Schools of Edmonton and Strathcona, will be held tomorrow, Wednesday afternoon. A special G. T. P. train leaving the G. N. R. station at 1:15 o'clock. This will enable all who get the afternoon off to take in the trip. Hot water will be supplied free and no need to be hungry, even if they do not take any provisions with them. Parents and friends of the children are expected to bring provisions with them. The train is expected to leave for home about 8 o'clock.

## LUNATIC AT LARGE

Constable Ward went out the Stony Plain road this morning to bring to Edmonton a lunatic who has been causing disturbances in that section for some time. His latest fancy is that of hurling bricks around his neighborhood and he is expected without any intention of hitting anything however. He has been considered dangerous to be at large and will be brought before Inspector Worsley when captured.

## ADDITIONAL LOCALS

The Rev. Mr. D. P. Cameron, Methodist minister of Ardrossan, paid a visit to Edmonton yesterday. He is on his way to the east.

Mrs. L. F. Garry of 383 Twelfth street, and Mr. Garry's sister, Miss Gertrude Garry, leave the city this evening on the G. T. P. train on an extended tour in the east.

Mr. McKinnon of the K. G. Lowes Company has returned from a visit to Summerside, P.E.I., where he acted as groomsmen at the wedding of his brother, James McKinnon of this city.

A party of 50 settlers, most of whom are to settle in the Edmonton district, left Montreal this morning in special cars, on the Grand Trunk Pacific railway. The party has been organized by L. H. Mueller, publicity commissioner for the province in the eastern seaport. They will reach Edmonton late in the present week.

Owing to a scarcity of reading matter in the various construction camps of the Edmonton district, a request has been made that any and all available literature in both city and Edmonton be forwarded to the A. B. Smith's school room. By telephoning 1233 magazines will be sent.

On Wednesday James Findlay, a coach, will know whether he must stand trial to charges preferred against him before the mounted police by Pearl Smith of Nanaimo. Findlay was also a preliminary hearing yesterday afternoon at the mounted police barracks. The defendant is enjoying his liberty under bail. His arrest was brought about last week.

Fire originating from the range at the King George restaurant, number 826 First street, yesterday morning caused a damage of considerable like \$100 before the blaze was extinguished by chemical engine at the hands of Fire Engine No. 1. Fire engine No. 1, likewise answered the alarm.

Walter Whitehead and Miss Annie Taylor, who will marry this month, were united in the holy bonds of matrimony yesterday morning at 9 o'clock by the Rev. Mr. H. S. Smith, of the Synagogue, across the street from the hotel. They took an early train for Calgary and other points. Many beautiful wedding presents were in evidence among them being a purse from the government staff of which they were members.

GET IT AT THE BAY

## RAIN AT LLOYDMINSTER.

Proves Very Beneficial to Crops in That District—Moisture Badly Needed. A steady rain for the past 18 hours up until yesterday put a becoming countenance upon every residence of the Lloydminster section, according to David Irwin, former hotel man, at present auctioneer, who is known far and wide over the entire province. Mr. Irwin says that the Lloydminster section was needing precipitation, in fact, just a little anxiety was being felt, when the deluge came and a bumper crop is guaranteed.

Mr. Irwin is enroute to Provost, where he is slated to start the points at the big race meet. He is accompanied on the trip by his daughter.

## SPECIAL SLEEPER FOR PASSENGERS TO EDMONTON

The city passenger agent's office of the Grand Trunk Pacific Railway announces that owing to the very heavy traffic on account of the Winnipeg exhibition, the company have found it necessary to operate a second sleeper. All of the space of one car has been assigned to Edmonton, which heretofore was held between Edmonton and Saskatoon. The Saskatoon passengers will be taken care of by the additional car.

## OHIO STATE BAR ASSOCIATION

Great Point, O., July 11.—Representative members of the local association of this state are assembled here in large numbers to attend the annual meeting of the Ohio State Bar association which opened here today, to remain in session until Thursday. Among the speakers scheduled to address the convention are J. B. Foraker of Cincinnati, who will speak on "Constitution Making in Ohio," and S. W. McCall of Massillon, Ohio, who will deliver an address on "Self-protection."

## SUN FIRE

The oldest Insurance Office in the world  
FOUNDED A.D. 1710  
HOME OFFICE: LONDON, ENGLAND  
Canadian Branch, Sun Building, Toronto, H. M. Blackburn, Manager.

## IN MEMORY OF LINCOLN

Washington, D.C., July 11.—A huge boulder, bearing a descriptive tablet of bronze, is to be unveiled to the memory of Abraham Lincoln tomorrow on the spot where he stood at the Battle of Fort Stevens, in which engagement the President played a conspicuous part. The memorial was erected by the Fort Stevens Lincoln Park association.

## BAPTIST ASSEMBLY IN TEXAS

Stanford, Texas, July 11.—Many visitors are here for the annual assembly of the West Texas Baptist Young People's Union, which was formally opened today and will continue in session until July 20. A number of Baptist divines, educators and laymen of wide reputation have been secured to address the assembly.

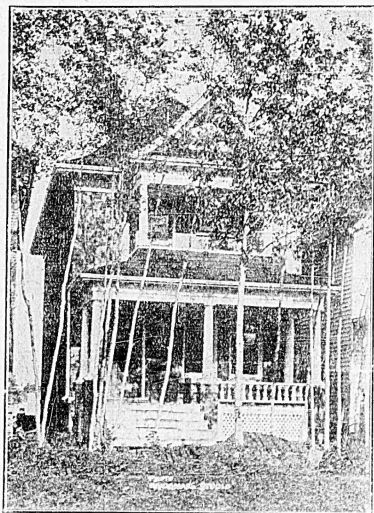

## DRUGGISTS MEET AT KOANOE

Bozeman, Va., July 11.—Several hundred of the leading druggists of Virginia are attending the annual convention of their state association, which convened in this city today for a three days' session. President H. H. McKay of Luray called the gathering to order today at the Hotel Bozeman.

## MORRISON-MOORE

Richmond, Tex., July 11.—Arrangements have been completed for the wedding here tomorrow of Miss Ivy Gladys Moore, daughter of Congressman John M. Moore, and W. Christie Morrison, formerly of Shelbyville, Ind., and now a resident of Houston, Tex.

## Elegantly Built, Brand New BRICK HOUSE

## NEAR FIFTEENTH AND JASPER.

THREE LARGE, LIGHT, SANITARY SLEEPING ROOMS.

This one is worth all the money we ask for it and more too. SEVEN ROOMS, completely modern in every respect. You will find here every little convenience that the most exacting housewife will require and then some.

WE DEFY anyone to criticize the stairs, because they are right. If they creak and groan when you step on them we will simply buy you something worth while.

OLD MISSION STYLE, open fire-place, comfortable den for the boss of the house; dandy nice built-in cupboard, china closet and many little nooks and corners handily arranged with shelves for the housewife.

Full size, full cement basement—Nice trees on the front of the lot.

## Price \$5650 Terms arranged

This house is on a beautifully parked street and on one of the prettiest streets in the city, close to Jasper. Now ready for occupancy. You rent-payers, let this sink into your souls

## RESTRICTION OF COMPETITION ONE OF THE PRIME OBJECTS OF ORGANIZATION—ELIMINATION IS ACCOMPLISHED BY RE-INVESTMENT OF EARNINGS.

Washington, D. C., July 8.—The long expected and much-discussed report from the Bureau of Corporations of the United States Steel Corporation, recently submitted to President Taft, has been made public. Signed by Herbert Knox Smith, commissioner of corporations, the report makes no recommendations and is almost wholly narrative in form. Mr. Smith declares that restriction of competition was the prime object of the organization of the steel corporation or so-called "trust."

property worth only \$689,000,000. By a constant re-investment of earnings, however, the report points out, much of the "wealth" in the company has been eliminated. The Steel Corporation now owns 75 per cent of the lake area, having recently concentrated its efforts to securing these properties. On this point the report says: "Indeed, insofar as the Steel Corporation's position in the entire iron and steel industry is of monopolistic character, it is chiefly through its control of ore holdings and the transportation of ore."

Discussing in detail how "the impending struggle of the giants" was averted almost overnight by the formation of the great combination of combinations, taking in 250 subsidiary companies, controlling sixty per cent of the total crude and finished steel production of the country, the report says:

"Until 1898 the bulk of the business was distributed among a very considerable number of concerns. There was sharp competition, modified by frequent pools of greater or less duration and effectiveness. Then came an era of great combinations, the report continues, with capitalizations ranging from \$30,000,000 to \$100,000,000, mergers of many small companies, which, instead of eliminating competition, threatened to bring price cutting on a larger scale than ever before. In 1899-1900 there were three great companies—the Carnegie company, Federal Steel and National Steel—dominating the production of crude and semi-finished products, and six concerns—the American Steel and Wire, American Tin Plate, American Steel Hoop, American Sheet Steel, National Tube and American Bridge—controlling the finished products."

This was the period when the "struggle of the giants" was impending and when the formation of the United States Steel Corporation was conceived and brought about. All nine of the companies named were combined, and later the Union Steel company, the Chicago Steel company, and in 1907, the Tennessee Coal, Iron and Railroad company, were taken over. The promising syndicate putting the deal through cost \$52,500,000 in cash.

During the ten years of its operation, the report says, the Steel Trust has paid average annual profits of 12 per cent on the money invested. In this connection attention is called to the fact that a considerable part of the investment is in undeveloped and unworked properties, showing that dividends from paying properties must be larger than the average would indicate. Insisting upon computing profits upon a tangible property basis, the report says that the steel corporation in defending its book value said it is probably true that the various properties acquired by the Steel Corporation, taken together with the

organization of this company as a concern, do have a value in excess of the sum of their values as separate entities. The co-ordination and integration made possible by the combination of such properties under a single control undoubtedly tend to reduce costs either through economies or through reducing the necessity of paying profits to others.

"Further, insofar as the consolidation of the industry under control of a single concern gives it an exclusive power over prices and production, this may result in an increase in its earning power and consequently in an increase in its value as a cash concern. This involves, however, the reduction of actual or potential competition. To allow single concern value as a basis on which to carry profits, rates, therefore, a question of fair dealing with the public. To record a valuation arrived at as justifying such profits under these conditions would be reasonable in a crisis, because the real question is whether the profits themselves, used to re-investing the capitalization, were reasonable."

Since the corporation has been offering its efforts particularly toward acquiring and extending complete control over properties, its percentage of production has decreased. As against 60 per cent of all crude and finished production in 1901, says the report, the corporation now has but much over 50 per cent. "Indicating conclusively the continuous presence of strong and increasing independent production."

However, the commissioner finds that competition so far as prices are concerned, has been modified by the policy of "co-operation" inaugurated at the "Gary dinners" about which so much has been said before. The Congressional Steel Investigating committee.

The present valuation of the combined steel property is placed at \$1,187,000,000 as against \$1,058,000,000 outstanding securities, an increase of about \$129,000,000 in property. While only about \$56,000,000 has been added to capitalization.

Reviewing the combine's present position in the industry, the report says that from the beginning the corporation has overshadowed its competitors, even exceeding all of its competitors combined, and while

in the ten years of operation its control of production has dropped from sixty to fifty per cent, approximately, its position in ore reserves is much stronger.

The advantage of controlling 75 per cent of the lake area, on which the industry is based, is materially enhanced by extensive control of rail transportation from the coast to the interior.

In his letter accompanying the report, Commissioner Smith says that in capacity rather than in actual production the corporation is materially stronger than the production figures indicate and contends that an ease of confidence would probably show itself in increased control.

### SCORES OF LIVES CRUSHED OUT AND SEVENTY PERSONS INJURED

(Continued from Page One.)

fers while the Pullman and coaches were in a mass in the rear.

The day coach was entirely crushed and in it deaths were many. Five bodies being removed at once. Three Pullmans were almost completely crumpled up, but appearances were that the passengers were in a measure protected by the strength of the cars.

With firemen, policemen and doctors working as fast as possible, the dead and injured were laid out on the lawn of Mrs. B. A. Horan in Fairfield avenue. As fast as the ambulance came for injured were sent to the hospital.

In the wreckage of the engine was found the body thought to be of Engineer Hart who had died at his post. A baby, about a year old, was found in one car. It was alive and had become separated from mother, Mrs. W. V. Cleary, Cherry Creek, Mr. In another car, Mrs. Whately, Philadelphia, was taken out alive, but her child was dead under her. Mrs. L. W. Page, Alexandria, D. C., who was with the maid and child escaped with minor injuries.

Members of the St. Louis National league baseball team, on the way to Boston were in last Pullman. All escaped unhurt. The car stayed on the track but its sudden stop at the moment of the crash threw every one of the ball players out of its berth. With- out waiting to dress completely the players hurried from their car, climbed down the ladder and spent a strenuous two hours helping railroad men, policemen and surgeons at their work

### CLAIMS HE WAS ASSAULTED.

Claiming that he had been assaulted on Jasper avenue, by a man who stepped out of the line between Namay and Fraser, Thomas Nicholas, an employee of the Swift Packing Co., Ltd., had information with the police department last evening. Nicholas was unable to describe his assailant in detail, but he alleged that the man who darted out from the lane in the dark, bit him in the left eye with one fist, and with the right dealt him a blow which knocked loose a couple of teeth. The police are inclined to the opinion that the Gallatin was mixed up in a row.

#### THE TRAINING OF OTTAWA

Stokers there have been plenty, and it is safe to assert that the strongest shift that ever entered a stake hold were the Ottawas for the entire Henley crew did regular work in the lower depths of Empire of Britain as they were travelling to England. The project was elected from the fertile brain of "Pud" Kelly. So many and so varied were his schemes for getting work out of his charges that Martin Kelly was forced to ejaculate, "Every time I look at that man it makes me feel tired."

But the went in among the giant rollers to work, in answer to an unimagineable should make the general row, the devil turned expectantly to the chief stoker. White teeth flashed in grins as they handed over their shovels. The whole Ottawa outfit went to work with zest, some remained in the outer room, others crawled through dripping tunnels and over lumps of coal to other infernos. In fifteen minutes they were advised too. The man next became unrecognizable. Perspiration, induced largely by the heat, rolled off the workers, but the black on their faces remained unaltered. The stokers couldn't quite make out what was up, but they were glad to see them. Four hours and eight of for "Five pen ten month"—well, there are easier ways of earning a living.

"Say," pleaded one of the demons, as the last of the boys went out, "you won't forget us fellows, will ye?" The devils were human after all! The crew paid their tolling to the amount of two shilling each, which would help considerably. Two minutes in the stake hold renders a man unrecognizable even to his best friend. Little wonder then that three respectable English ladies nearly succumbed on meeting the procession in the passage-way.

## Yale and Harvard Will Meet English

TEAMS THAT WILL REPRESENT AMERICA AT GREAT INTERNATIONAL ATHLETIC TOURNEY—AMERICANS TRAINING ON BOARD SHIP CROSSING ATLANTIC.

New York, July 10.—Seventeen athletes, the pick of the track and field men of Yale and Harvard, sailed on the liner Vaderland for England, where they will meet the best men of Oxford and Cambridge in an international athletic meet tomorrow. The men were in high spirits as their friends and the crowd on the pier waved a last goodbye and shouted "Good luck!"

The American team was made up as follows: 100 yard dash—Heilly and Thatcher of Yale. Quarter mile run—Kelley of Harvard and Stewart of Yale. Half mile run—Priebe of Yale and Jacques of Harvard.

Mile run—Lachy of Harvard. Two mile run—Williamson of Harvard and Ryan of Yale. Running high jump—Barker of Harvard and Gaudet of Yale. Running broad jump—Holden of Yale and Kilpatrick of Yale. 120 yard high hurdles—Gaudet of Yale and Kilpatrick of Yale. Hammer—Gibbs of Yale and Gaudet of Harvard.

Others in the party were Captain Foster of Harvard, Phyl and Soule, managers, respectively of Harvard and Yale, and Coach Donovan and Johnny Mack, trainer of Yale. Transcendentalism has been made for the men to continue their training while crossing the ocean.

As a comparison of the records made this year the Americans have the advantage in six events. In one the performances are only equal, while in the others the Britons are superior. It will not be safe, however, to rely too much upon the table of records in picking the winner. This table is based upon performances of Oxford and Cambridge in their dual meets of March, while the American records are those made in the Harvard-Yale dual meet in May and the intercollegiate championship two weeks later.

The conditions under which the two meets were held were totally different. The Englishmen fought their games on a raw March day with a strong wind blowing on the track. The conditions were not in the least conducive to good performance either on the track or in the field. Harvard and Yale, on the other hand, were at their best when their games were held, and the chances are much against their equaling or exceeding their mark. The Englishmen, however, should be in far better form than heretofore, and with the added advantage of competing at their home grounds may have an advantage over the Americans.

In fifteen minutes they were advised too. The man next became unrecognizable. Perspiration, induced largely by the heat, rolled off the workers, but the black on their faces remained unaltered. The stokers couldn't quite make out what was up, but they were glad to see them. Four hours and eight of for "Five pen ten month"—well, there are easier ways of earning a living.

"Say," pleaded one of the demons, as the last of the boys went out, "you won't forget us fellows, will ye?" The devils were human after all! The crew paid their tolling to the amount of two shilling each, which would help considerably. Two minutes in the stake hold renders a man unrecognizable even to his best friend. Little wonder then that three respectable English ladies nearly succumbed on meeting the procession in the passage-way.

## Yale and Harvard Will Meet English

TEAMS THAT WILL REPRESENT AMERICA AT GREAT INTERNATIONAL ATHLETIC TOURNEY—AMERICANS TRAINING ON BOARD SHIP CROSSING ATLANTIC.

New York, July 10.—Seventeen athletes, the pick of the track and field men of Yale and Harvard, sailed on the liner Vaderland for England, where they will meet the best men of Oxford and Cambridge in an international athletic meet tomorrow. The men were in high spirits as their friends and the crowd on the pier waved a last goodbye and shouted "Good luck!"

The American team was made up as follows: 100 yard dash—Heilly and Thatcher of Yale. Quarter mile run—Kelley of Harvard and Stewart of Yale. Half mile run—Priebe of Yale and Jacques of Harvard.

Mile run—Lachy of Harvard. Two mile run—Williamson of Harvard and Ryan of Yale. Running high jump—Barker of Harvard and Gaudet of Yale. Running broad jump—Holden of Yale and Kilpatrick of Yale. 120 yard high hurdles—Gaudet of Yale and Kilpatrick of Yale. Hammer—Gibbs of Yale and Gaudet of Harvard.

Others in the party were Captain Foster of Harvard, Phyl and Soule, managers, respectively of Harvard and Yale, and Coach Donovan and Johnny Mack, trainer of Yale. Transcendentalism has been made for the men to continue their training while crossing the ocean.

As a comparison of the records made this year the Americans have the advantage in six events. In one the performances are only equal, while in the others the Britons are superior. It will not be safe, however, to rely too much upon the table of records in picking the winner. This table is based upon performances of Oxford and Cambridge in their dual meets of March, while the American records are those made in the Harvard-Yale dual meet in May and the intercollegiate championship two weeks later.

The conditions under which the two meets were held were totally different. The Englishmen fought their games on a raw March day with a strong wind blowing on the track. The conditions were not in the least conducive to good performance either on the track or in the field. Harvard and Yale, on the other hand, were at their best when their games were held, and the chances are much against their equaling or exceeding their mark. The Englishmen, however, should be in far better form than heretofore, and with the added advantage of competing at their home grounds may have an advantage over the Americans.

Batteries—McWhirter.  
Victor G. Parker, of Winnipeg, is pathfinder, and the man, are also with the party. On Saturday the car left Winnipeg, and since that time have crossed Manitoba and Saskatchewan and Alberta. The trip comprises 2,300 miles, of which 1,134 miles to Calgary are covered. After leaving Winnipeg today at 1:30 p.m. the party will go to Edmonton, then east to Saskatoon, south to Regina, and back to Winnipeg. The four takes place at the last of August, and it is expected that numerous cars will be entered. Much interest is being taken in the trip by many local motorists, and though there are few who have definitely decided to enter the event, it is thought several will decide to go on a later date.

## PATHFINDER CAR ARRIVES HERE TODAY

Calgary, Alta., July 11.—The Pathfinder car for the big Modern Power reliability tour to take place in August arrived in Calgary this morning after the roads from Winnipeg to the coast. The car used for the trip is a Halladay No. 40, and up to the present time the party has crossed all classes and conditions of roads, and has not met with any injury to their car. George Daubert, of Strathcona, N.S., is driver; Victor G. Parker, of Winnipeg, is pathfinder, and J. H. Bacon, a newspaper man of Grand Forks, N.D., and Harry Brown, of Regina, are also with the party. On Saturday the car left Winnipeg, and since that time have crossed Manitoba and Saskatchewan and Alberta. The trip comprises 2,300 miles, of which 1,134 miles to Calgary are covered. After leaving Winnipeg today at 1:30 p.m. the party will go to Edmonton, then east to Saskatoon, south to Regina, and back to Winnipeg. The four takes place at the last of August, and it is expected that numerous cars will be entered. Much interest is being taken in the trip by many local motorists, and though there are few who have definitely decided to enter the event, it is thought several will decide to go on a later date.

## Calles Pay Draw With Swifts

#### Wonderful Defense of Packing Plant Unable to Withstand Scott's Attack.

GAME WAS FASTEST SEEN IN EDMONTON. Crowd of Over 750 People Witnessed the Game—Interest Intense Throughout.

The Swift eleven almost met their first defeat last night at the hands of the Caledonians when in a game which resulted in a tie the score the Swifts showed them back into their own goal hitting for every kick. The score was one all. Swifts won the first half, but the Caledonians came back strong after the interval and placing the ball in the net after about twenty minutes of play. The entire game which was witnessed by the largest crowd that has been seen in the stadium in the city, there being fully eight hundred fans present, was probably the fastest game that has been played in Edmonton for many years, and certainly the fastest and most closely contested that has been played this year.

The scoring was faster than has been heard at a soccer match for years the fans becoming wildly excited and shouting at every play. When the Caledonians had the suburbs fighting for every kick.

Barton scored for Swifts after about fifteen minutes of play during the greater part of which the Caledonians had the game with them. After scoring the first goal the Swifts eleven improved and showed the play. Their forward line worked fairly well together, but they were decidedly not as strong as in their previous games. The goal was not scored until the end of the game.

A shooting contest between the Edmonton and Strathcona sharpshooters. A pitching practice for the Beaton's pitching staff.

## REAL ESTATE BULLETIN

For business purposes Jasper avenue, Second street and warehouse sites are required for.

In residential lots the principal movements are in Inglewood and Norwood, while in houses the west end from fifth to Twenty-fifth streets is principally in demand with some east end required for.

Sales of some subdivision lands are pending at present, as are also some large blocks of farm lands and some good coal lands.

## Alberta Park

Former purchasers of blocks in this suburb are bringing their friends in to do likewise, which we consider a good test of appreciation of its merits as an investment.

We still have some good blocks available.

### Today's Offerings Business Properties

The best lot now for sale on Central Jasper Avenue ..... \$95,000  
Two corner lots on Jasper Ave. West, Blocks 16 and 17, each ..... \$12,500  
A double corner on spur track, 8th St. .... \$15,000  
A lot on Second St., revenue producing \$22,600  
A hotel at Loughheed, 17 rooms, furnished ..... \$6,500

### Residential Properties

An 11-roomed modern house on 7th St., south, with stable ..... \$8,000  
A 7-roomed modern house on Athabasca Ave., for ..... \$4,750  
A 2-story brick house on Victoria Ave. .... \$6,500  
A 12-roomed modern house on 14th St., south ..... \$9,000  
A first-class 10-roomed residence on two view lots in choice part of west end, fully furnished, for July, August and September, per month ..... \$100

### Farm Lands

320 Acres, improved land in Stony Plain district, near Carvel station, per acre ..... \$10.50  
320 Acres, about 4 miles from Lamoureux, per acre ..... \$16.00  
316 Acres, improved land, adjoining Cooking Lake Beach, with F.O. store and other buildings and improvements, per acre ..... \$25.00  
N.B.—As owner of above is leaving the country, he asks that offers be submitted for this eligible and revenue producing property.

### Scrap

South African veteran scrap is becoming scarce and price is advancing daily. We still have a good supply on hand; all guaranteed by us.  
We also have a small supply of Half-breed and Red River volunteer scrap.  
Loans negotiated.  
Agreements for sale purchased.  
Oil stocks bought and sold.

## DAIRY INSPECTOR SUBMITS REPORT

SOURCES FROM WHICH CITY'S MILK SUPPLY IS DERIVED, IN A VERY SATISFACTORY MANNER

In his report for June, Andrew Logan, city milk and dairy inspector, says that the dairies inspected during the month were all found to be well up to the standard, some showing marked improvement. Samples of milk taken after the middle of the month were better in four points than in the beginning of June and for the past three months. Bacteriological tests were applied to a complete set of samples and all were found to be fairly satisfactory. One dairy was discovered early in the month to be in poor condition and the owner was notified to clean up his premises.

Inspector Logan keeps a very complete record of each dairy in the city and this is able to keep the weak spots, if any, in the milk supply.

### NEWS OF THE CITY

The monthly meeting of Humane Society will be held, August 12th at 3 p.m. in All Saints' school room.  
There will be no meeting of the W. C. T. U. on Wednesday afternoon owing to the fact that a large number of the members are out of the city.

The monthly meeting of the W.C.T.U. will be held at the Y.W.C.A. on Wednesday at 3 p.m. The members are asked to kindly bring fruit, flowers or magazines for the hospital.

After a month's visit to the coast where he was taken ill and confined to the hospital for some time, Lorne York is now returning to the city residence. Mr. York has fully recovered from his illness.

Fire risks in Edmonton are better than in any other city of the west according to William Wood, special agent and inspector for the Home Insurance Company of New York who has been in Edmonton for the past few days.

F. C. Loves and Company have moved their premises on Jasper East to 626 First street where they will occupy temporary offices until the new business block to be erected on the site of their Jasper avenue office has been completed.

Cassius Pelletier, of Nome, Alaska, who has been engaged for years past in the gold mining industry in the north, came into the city this morning. Mr. Pelletier "came outside" last fall, and has since been on tour through the United States and Canada.

For the purpose of looking over agricultural land in Central Alberta with a view of making extensive investments, G. A. Yancey and E. F. Graves of Spokane are in Edmonton. They returned Sunday from a trip through the districts tributary to the G. T. P. and are anxious to make the trip to the Peace River country.

Street car service has been resumed on the Jasper avenue line after having suspended for several weeks on account of paving and other work on that thoroughfare. Upon leaving Jasper avenue the cars run north on Namayo boulevard, thence out to Alberta avenue, returning the cars run south of Studebaker avenue and west on Jasper to Twenty-fourth street.

B. W. Wallace, formerly secretary of the board of trade of Prince Albert, was a caller at the exhibition offices yesterday afternoon. His mission to Edmonton is to obtain information as to the manner in which the association in this city is organized, the relation of the city council to the association, how the directorate is elected, the way in which its grant is earned, and other matters concerning the carrying on of the business of the organization. Yesterday afternoon Mr. Wallace paid a visit to the fair grounds in company with Manager A. G. Harrison, to see the grounds and buildings.

Word was received in the city yesterday by M. G. Hay, manager of the book store of the booklets of Ront county and at present reside of the county. No particulars regarding the drowning accident were contained in the wire to Mr. Hay.

### ACCIDENTAL DEATH

The instant issue the death of Robert Scott, who was injured by the collapse of a scaffold in the Great West mine on Friday, and who died at the Misericordia hospital at 3:20 p.m. Saturday was held yesterday afternoon and evening. After four hours devoted to hearing of evidence, and after the jury had deliberated for an hour, a verdict of death by accident was brought in, with the addition that, in the opinion of the jury, if proper precautions had been taken the accident might have been avoided.

## HEALTH OFFICER IS IN THE DARK

DOES NOT KNOW HIS POWERS AS REGARDS INSTALLATION OF SEWER AND WATER SERVICE

Absolutely in the dark as to the legal powers with which he may or may not be clothed on this particular question, Dr. Whitman, municipal health officer, has vainly endeavored for some time to get an opinion from the commissioners and City Solicitor Brown as to whether he can order water and sewer installed where needed.

Dr. Whitman wrote to the commissioners some time ago with a view of clearing up the point raised, supplementing this with a verbal request of the city solicitor for advice covering the question. He did not fail to receive any reply from the commissioners but did not obtain the desired information from Mr. Brown.

To complicate the matter still further Commissioner Bulchard told Commissioner Gandy this morning that the medical health officer could order sewer and water put in, and there the situation stands.

### POLICE COURT.

Six inebriated gentlemen paid the usual fine this morning.

The hearing of the charges of false pretenses laid against E. G. Simmons by J. McDonald were adjourned until July 18.

Barrie McDonald was sent back to the cells this morning to await his trial on a charge of forgery. The charge is laid by H. Wilson. It is alleged that McDonald forged a check for \$25. He will come up tomorrow.

Claire Forrest will appear in the court again this afternoon on the same charge of keeping a bawdy house that was laid some months ago. The police claim that it will be finished up today. J. McKay was charged this morning with assault by J. McDonald, the case was adjourned until July 13. He was also charged with doing damage to real property. That case also was adjourned until July 13.

Information was laid by one Thomas that his suit case was stolen from his room in the Jasper House. He claims that later he saw a man carrying it in another hotel in the city.

### NECROLOGIC

The death took place, Sunday of Knout Wick a Norwegian who came to Edmonton from Norway but a few weeks ago. He had been ill almost ever since he arrived in Canada. The funeral will take place tomorrow afternoon at 2 o'clock from the undertaking parlors of Andrew's brothers. His brother resides at 709 Fraser avenue. The funeral took place yesterday afternoon of the four-year-old daughter of Frank Semes at 544 Clarke street.

Charges of seduction were laid against J. Findlay formerly a cook for a construction on camp Namayo by F. Smith a laborer in that district in the Mounted Police court this morning.
